

# CL-Mare Replacer

CL-Mare Replacer is a colostrum supplement. It provides a good source of probiotics, bovine iGg's and the necessary nutrients to give a foal a good start to life. It is necessary to make sure the foal gets enough mare colostrum to meet its immune needs, but CL-Mare Replacer is a great supplement to mare's colostrum that ensures the best start to life possible.

## Features and Benefits

- Provides natural support for foals that may be slow to start.
- Helps a foal to receive enough nutrients and energy to get up and begin nursing.
- Helps ensure that the foal receives enough probiotics to jump start a healthy gut and avoid scour problems in the future.
- Made from high quality ingredients to ensure proper digestion and absorption.
- Helps to stabilize the stomach.
- Contains ingredients and nutrients necessary to help the probiotics establish healthy cultures.
- Palatable formula that is easy to administer with a syringe or bottle.
- Great for maiden mares whose colostrum level may not be adequate.

## Overview

CL-Mare Replacer is designed as a colostrum supplement for newborn foals. Mare's colostrum or blood plasma is always best but when her supply is insufficient CL-Mare Replacer can be used to give your foal the best start to life possible. CL-Mare Replacer can be used as a milk replacer on orphan foals for the first seven days of life. Blood Plasma or mare's colostrum should always be used for the first feeding. If Mare's Colostrum or blood plasma is not available, Gold Label Whey can be added to the CL-Mare Replacer to give the foal a chance at life. CL-Mare Replacer is a complete foal milk replacer that contains all the necessary nutrients for a foal in the first week of life. It contains probiotics and sources of energy to help all foals get up and get started nursing. It provides them with all the necessary building blocks for a successful start at life.
