# Di-A-Zyme<sup>®</sup> W/S Concentrate

Di-A-Zyme W/S Concentrate is a feed supplement enzyme concentrate designed to enhance the digestion of animal feed. Maximum availability of the feed nutrients is achieved by this powerful hydrolyzing effect of enzymes in Di-A-Zyme W/S. This is an all-purpose enzyme that works on nearly all species and in the majority of regular corn and milo rations.

## Features & Benefits

- A source of live (viable), naturally occurring microorganisms.
- A source of amylase to hydrolyze starches.
- A source of protease to hydrolyze plant proteins.
- Increases feed conversion for improved costs.
- Easy to use. Just mix with balanced rations.
- Increases appetite.
- A cost effective management tool.

## Overview

Di-A-Zyme W/S is a highly concentrated source of Protease, Amylase, Cellulase, Lipase and Pectinase enzymes produced by Rhizopus fermentation and extraction methods.

# Di-A-Zyme<sup>®</sup> W/S Concentrate

## Product Code and Sizes

06-0404	1100 Gram Jar
06-0405	Multi-lb Bulk
06-1164	25 Kilo Bulk Drum

## Guaranteed Analysis

1000 Grams = 1 Kilo

Protease (Minimum).....	5,000,000 Units/kg
Amylase (Minimum).....	37,500,000 Units/kg
Cellulase (Minimum).....	2,000,000 Units/kg
Lipase (Minimum).....	1,500,000 units/kg
Pectinase (Minimum).....	1,000,000 units/kg

## Ingredients

Anhydrous Dextrose, Dried Aspergillus Oryzae Fermentation Extract, Cellulase, Lipase, Pectinase. Enzymes are produced by Rhizopus Fermentation and Extraction Methods.

## Instructions

Add 110 grams per ton of feed. (All: Corn, Milo & Soybean rations). Use in feed, spray on feed or use in drinking water. Store in a dry, cool room below 72 degrees. Avoid moisture.
