- Contains enzymes and yeast to help maintain gut function.
- All natural, safe and effective.
- Palatable formula that can be top dressed or mixed in a multiple number of rations.

Overview

Zyesta Plus is a feed additive that helps to improve your feed efficiency. In other words it helps to better digest the rations you are feeding. Customers report that they are able to reduce the amount of rations fed, while still maintaining the same results. Zyesta Plus improves the digestibility of different plant matter and improves the nutrient absorption rate increasing the amount of usable material in all feedstuffs, including hay. What this does is reduce the amount of feed needed to get the same amount of nutrition. Zyesta Plus is cost effective. It costs about 8 cents per day per head. Factor in the feed savings and Zyesta Plus will more than pay for itself. Zyesta Plus is the product of choice for a number of different types of rations.
